

Retail Catalog.

Retail distributor for the world's most exciting sportgames in Europe.

Brookline is a young retail distributor that only works with the world's most exciting sport games. We distribute our products throughout Europe from our large warehouse in Apeldoorn (the Netherlands). Brookline has its origins in our enthusiasm for unique, active team sports. We only bring onto the market the games we're excited about ourselves, because in our opinion, we think Europe should have the opportunity to get to know these special (and addictive!) sports. Our entire service is geared towards this goal.

More than just distribution

Not only are we a reliable distributor, we also function as a brand ambassador, marketer and consultant. Our customers are retail organisations focused on sport and recreation, as well as those that operate in education and the tourism sector. They can count on rapid delivery and a whole host of extras besides. We strongly believe that we and our customers can increase and broaden awareness of the brands that we deliver. We want to inspire consumers and introduce them to the world's coolest sport games, and we support the retail sector in achieving this objective.

Benefit from our experience

While Brookline is a young organisation, we already have more than 30 years' experience in retail distribution. We know the market, know which trends are on the rise, and choose only the world's coolest games. This makes Brookline a valued partner in the sport retail sector and in all other branches that work with appealing sport and game products.

"Dedicated to bringing you the most exciting funsports."

Spikeball™

Spikeball Roundnet.

As far as we're concerned, there's no doubt about it! Spikeball is on the brink of getting Europe moving. It's set to be the next great global sport; of that we can be sure. And you can be part of it! We believe Europe should get the chance to discover this unique (and addictive) sport. Join the movement!

“Some say that if volleyball and foursquare had a baby it'd be named Spikeball. We like to say we're building the next great global sport.”

Likeable Spikeball

Spikeball is so much fun because it can be played by anyone, whether they're elite athletes or absolute beginners. There is a product for every target audience: from rookie to pro. The game has a limited number of ground rules, which means it's easy to learn. In schools, it's a popular game during PE lessons. Elite athletes use Spikeball to fine-tune their skills or boost their reflexes.

Spikeball is also a game that can be enjoyed by people of all ages on the beach, in the park, in the street, in the forest, and even in the swimming pool. You name it!

Complete game sets

Players can get started with a rookie, standard or pro Spikeball set. Each set comprises a net, balls, a handy carrying bag and of course a copy of the rule book. The sets are all easy to assemble! When you've finished playing, simply fold in the legs, which make storing the set as easy as it gets. Spikeball to go? It takes no time to put everything away in the handy carrying bag.

Get young people moving

It is hugely important to encourage kids to exercise. Spikeball makes sporting activities accessible and fun. The game is action-packed and keeps on challenging players. By playing more often, players find they show rapid improvement. It's this and the competitive nature of the game that combine to keep Spikeball fun! So it's perfect for the school playground and on the sports field. But it is also a fantastic game for the whole family to play.

Spikeball has more than 4 million players worldwide

Domino effect

Once you've discovered Spikeball, you'll be hooked! We've noticed that proud Spikeball owners play the game regularly. And that's when word spreads quickly! After all, Spikeball isn't only great fun to play, it's also exciting to watch. It always draws attention. So, yes, all those watching get the urge to have a go themselves. Spikeball fans inspire each other. This is how together we can build a Spikeball community in Europe and as a reseller, you could be part of the craze. You can bet that Spikeball sets will be flying over the counter! After all, it's the next great global sport.

brookline.nl/spikeball

Standard Set

The standard Spikeball Set comes with everything you need to play: one set with a net, three balls, a lightweight carrying bag and a rule book.

Features:

- Collapsible legs make it easy to fold up your set and toss it in the car.
- Lifetime warranty. If a piece breaks we'll replace it for free, no questions asked.

	Individual
Art. code	S-CM-002

Boost your Spikeball sales by catching your customer's eyes!

Why put a POS display in your shop?

The attention value of POS displays is that they give a massive boost to brand awareness! This will definitely have a profound effect on Spikeball sales figures. Another major benefit is that Spikeball displays take up very little space, yet still catch people's eye. The designs play on the process that customers undergo before they decide to buy. You can use the displays to kill several birds with one stone! You capture the attention of your customers, you target impulse buyers and provide them with all the information they need.

CROSSNET™

The set consists of a CROSSNET volleyball net, a backpack, four tubular steel uprights, four tension cords, twelve ground anchors, two quadrant lines and one boundary line. Easy assembly and dismantling thanks to the instructions supplied.

when someone is eliminated. The goal is to 'take out' your opponents by hitting the ground in their square. The winner is the first player to reach eleven points with a two point lead.

CROSSNET.

Gather your friends and family. It's time for a brand new fun sports game: CROSSNET. CROSSNET is the world's most engaging four square volleyball game. Featuring a centrally placed net à la volleyball and a four-quadrant court à la four square. CROSSNET makes you feel like a kid while providing enough of a challenge to engage the grown-up you. Are you ready for a game?

Why more and more people are fans of CROSSNET?

- *Complete set* – A CROSSNET set is complete and is easy to carry. You can easily turn a boring afternoon into a sporty and fun time!
- *Play anywhere* – CROSSNET can be played anywhere you want. On the beach, in the garden, in a sports hall or at the park! Where will you go?
- *Active & Fun* – The most enjoyable way of combining sports with play and training your reaction skills. Unlike regular volleyball or beach volleyball, CROSSNET is played on a court divided into quadrants, which makes it even more fun. It's the ideal sport for adults and children alike.

CROSSNET is the #1 fastest growing backyard game.

Who will win the four-way battle?

The basics of how to play CROSSNET

Gather at least three of your friends and number the quadrants one to four. The CROSSNET playing area is based on the 'Four Square' court. The game requires at least four players, i.e. one player per quadrant. You can add players too. Just have them queue up outside square one so they can step in

“CROSSNET is truly a game-changer. From beaches to parks, inside or outside, volleyball has been reinvented”

Donald Suxho, Team USA

brookline.nl/crossnet

CROSSNET set

KANJAM®

KanJam.

KanJam isn't just popular in America, where it originated. This great game is now played all over the world and is getting more popular every day. And there's a good reason for that! We promise you that once you've played it, you'll never want to play anything else...

A game for everyone

KanJam is popular because it can be played by anyone, from elite athletes to absolute beginners. From young to old. It's easy to learn and never stops being fun. You'll never get enough!

It's anyone's game.

KanJam is a must-have

Those KanJam sets are a real must-have. Use them at home or in the park. They're ideal for playing with friends, neighbours or family while keeping a safe distance. Our experience has shown that KanJam is fun for everyone from elite athletes to couch potatoes! You can play it like a pro or take things at a leisurely pace. That's what makes it so much fun and accessible. Watch out though: it is also highly addictive. So you're sure to get plenty of exercise in the time ahead!

Infinite variations

There are an infinite number of ways to play KanJam. You can even start playing KanJam on your own, even though it's more fun if there are two (or more) of you of course. There are also all kinds of game variants that you can play as a team. So you'll never get tired of playing KanJam! We regularly share KanJam challenges through our social media channels, to help you to discover new variations of the game.

KanJam, it all started with a trash can

With a trash can?

That's right! In the mid '90s, Charles Sciandra and Paul Swisher invented a frisbee game. Instead of the cans that we play with now, in those days, they played with metal rubbish bins and with simple rules. The guys liked their idea so much that they wanted to have it patented.

But was the game unique enough to do that?

Trashcan frisbee

They did not know that they had to distinguish themselves. The game as it was originally played was further developed. They devised the opening in the rubbish bins, which provide to be a brilliant idea. It made the game unique. The game was patented, after which Charles and Paul ran into the next problem. The metal rubbish bins were very heavy to transport. This meant that it was back to the drawing board for the inventors.

It turned out that finding the solution to their challenge would be no simple matter..

That is, until Charles found a piece of linoleum in his basement, which got him thinking. And the KanJam can as we now know it was born!

brookline.nl/kanjam

MOQ	10 pcs
RRP	€29,95

Illuminate Soccer ball

Package includes: 1 LED glow-in-the-dark Illuminate Soccer ball, official size and weight.

	Individual
Art. code	KJI-SB-1
UPC/EAN	089572 500422
Dimensions	30x18x10 cm
Weight	624 g
MOQ	10 pcs
RRP	€29,95

YOU.FO

One look and it's easy to tell that YOU.FO is a cross between lacrosse and ultimate frisbee, but that's only the beginning of the story. YOU.FO is a versatile and safe distance sports and leisure game that is 'easy to play, fun to master'. People describe YOU.FO as fun, dynamic and addictive. For that reason, people from all different cultures embrace the game of YOU.FO.

It is fun, dynamic and elegant.

What is YOU.FO

YOU.FO is all about throwing and catching an aerodynamic ring with specially designed sticks. It is versatile and can be played one-on-one or in teams, freestyle or competitive, in the park, on an urban playground or at the beach. The official competition game is played 3vs3 or 5vs5, but YOU.FO also developed lots of mini games that can be played 1vs1 or 2vs2 at any level with family and friends.

Boyhood dream: from idea to reality

YOU.FO was conceived back in 2011 by Bas Ruysenaars of the Netherlands who, as a teenager, had been inspired by sports such as football, Jai Alai (the world's fastest ball game) and Frisbee. Bas came up with his own sports games using various household items. The idea for YOU.FO was one of those games: his dog's rubber ring and a large wooden stick to launch it with. The game has won the "European Award for Innovation" and reached the finals of the ISPO Brand New, the world's largest sports trade fair.

YOU.FO®

How to play

YOU.FO can be played at each level. It can be played freestyle or competitive, one-on-one or in teams.

A dynamic fun game (1vs1 or 2vs2) game is the 'YOU.FO square game'. Each player tries to score by grounding the ring in the opponent's square. Change turns when the ring is caught or when the ring lands outside of the opponent's square. The ring must be thrown above shoulder level and the first player to have 11 points wins.

The official competition game can be played 3vs3 or 5vs5 and is called 'YOU.FO Zone'. A point is scored when a member of one team successfully catches the ring in their opponent's scoring zone. Passing and catching can only be done with your stick, players are not allowed to run with the ring on their stick (only pivot). Most unique is that you continue playing at all time. There is no out of bound, if the ring falls on the ground it can be claimed by all players. The first player who puts the red tip in the ring gets possession.
